

MELUR GLOBAL SDN. BHD.

your flow solution partner in pumps & valves system

COMPANY PROFILE

www.melurglobal.com

OUR PROFILE

Melur Global was established in 2006 and over the years the company has developed its engineering prowess and obtained recognition as a committed and dedicated contractor and supplier for pumps, fire pumps, blowers, valves and related accessories.

With the ever-growing awareness on the importance of fire safety at industrial and residential infrastructure to protect lives and valuables, Melur Global has taken a step forward working exclusively with CNP-NMFire to offer a cost-efficient and UL/FM certified Fire Fighting Pump Package.

Melur Global also offers variety types of pumps for diverse industrial and business sectors both in local and South East Asia (SEA) region.

Industries we serve:

.....and more

OUR VISION

Melur Global has envisioned to be recognized as a trusted pumps and valves system distributor. Melur Global offer our customers a one stop solution centre for their fluid handling equipment. Melur Global has a vision to provide pumps and valves systems that are cost-effective and also accredited by certification bodies such as NFPA20 and UL/FM.

OUR MISSION

Our mission at Melur Global is to provide quality, reliable products and fully utilize our technical expertise to exceed our customers' expectations. We are committed to provide our products and services at competitive prices and minimum lead-time. We will continue to deliver excellence and strive for continuous improvement to further increase our presence in the industry.

TECHNICAL & SALES SUPPORT

Full Scale Commissioning

Melur Global will appoint a Project Manager whenever project awarded to oversee all activities of installation, commissioning at site to the end. Melur Global would also provide on-site training for clients/ operators or send them abroad for training at NMFIRE University.

Service & Maintenance

At Melur Global we have dedicated teams of Service Engineers support to our customers. We offer electrical, mechanical, preventative and reactive maintenance. We also provide tailored made service contracts to meet individual needs that may range from an annual service visit to permanently-manned sites. Service agreements cover all types of fixed Fire Protection.

We can offer servicing & maintenance for multiple brands of systems from a single source. Our services include but not limited to:

- ➔ Weekly, monthly, quarterly, semi-annual and annual testing, service and inspection
- ➔ Full-time site management
- ➔ System service and inspection
- ➔ Emergency call-out
- ➔ Modifications and extensions
- ➔ Fire pump system training services under our solutions and services portfolio
- ➔ Spare parts and Refurbishment
- ➔ Calibration

Customising & Instrumenting Solutions

Our service teams provide routine planned maintenance and urgent repairs. We also specialise in providing team of engineers & technicians who are able to carry out modifications or extensions to existing systems.

PRODUCT RANGE

CNP- NMFIRE PUMPS

- Pump Type : Fire Pump
- Country of Origin : China - France
- Pump Category : FM/UL (NFPA 20)
- Performance Range : 50 - 7500 USGPM
- Pump Execution : Diesel Engine / Electric Motor
- Typical Application : Petrochemical, Offshore Platform, Power Plants, Oil Refineries, Liquid Gas Plants, Hotels and Large Commercial Buildings, Railway Stations, Airports etc.

APEX PUMPS

- Pump Type : API / ISO Centrifugal Pump
- Country of Origin : England
- Pump Category : API 610 11th Edition, ISO2858 and ANSI Standard
- Performance Range : Up to 900 m³/hr and 150 m
- Pump Execution : Bare Shaft & Complete Package Unit
- Typical Application : Chemical, Petrochemical, Oil & Gas Process.

EDUR PUMPS

- Pump Type : Centrifugal, Single-stage & Multi-stage Pump
- Country of Origin : Germany
- Pump Category : Liquid Gas Pump (LPG), Ammonia, CO₂, Multiphase
- Performance Range : 340 m³/hr and 400 m
- Pump Execution : Bare Shaft & Complete Package Unit
- Typical Application : Oil Refineries, Liquid Gas Plant, Chemical, Petrochemical, Water Supply, Waste Water Treatment, Cooling & Refrigeration.

CYROGENIC PUMPS

- Country of Origin : Italy / Germany
- Pump Category : Cryogenic Liquids, Liquefied Natural Gas (LNG)
- Performance Range : 80 - 300 Bar
- Pump Execution : Bare Shaft & Complete Package Unit
- Typical Application : Healthcare Industry, Power Plant, Refineries, Metallurgy Industry etc.

NMFIRE DIESEL ENGINE

- Engine Type : Diesel Engine
- Country of Origin : China-France
- Pump Category : UL listed and NFPA 20
- Typical Application : Petrochemical, Offshore Platform, Power Plants, Oil Refineries, Liquid Gas Plants, Hotels and Large Commercial Buildings etc.
